

SREE DAKSSNAA AEROSPACE & DEFENCE INDIA PVT LTD

HERO

Engineering Precision.

Building Mission Critical Solutions.

Engineering, manufacturing and integration solutions for the Aerospace & Defence sectors — built on precision, reliability and manufacturing expertise.

ABOUT US

Engineering for Aerospace & Defence

Established in 2024, **Sree Dakssnaa Aerospace and Defence India Pvt Ltd** delivers engineering and manufacturing solutions for demanding Aerospace and Defence applications.

Our capabilities span **design, development, fabrication, precision machining, welding, assembly and turnkey manufacturing** of metal and non-metal products.

Precision Engineering • Advanced Manufacturing • Defence & Aerospace Expertise

CORE CAPABILITIES

From Engineering to Execution

Precision Machining
Composite Manufacturing
Fabrication & Welding
Assembly & Integration
Specialised Coatings
Additive Manufacturing
Quality & R&D
Project Management

MANUFACTURING INFRASTRUCTURE

Built for Complex Engineering

Our manufacturing infrastructure supports precision, scale and complex engineering requirements.

Laser Processing

High-precision sheet-metal processing.

CNC & Double Column Machining

Precision machining for complex and large components.

Punching & Welding Systems

Advanced fabrication capabilities across multiple metals.

Additive Manufacturing

Supporting Titanium, Aluminium, Superalloys, Stainless Steel and other advanced materials.

44,000 SQ. FT.

New FRP manufacturing facility planned for future expansion.

FEATURED PROJECTS

Engineering in Action

AMCA Mock-up Cockpit Fabrication

ADA, Bangalore

Modular Cockpit Shell — LCA AF MK2

ADA, Bangalore

Jaguar Aircraft Simulator Cockpit Shell

HAL, Bangalore

Aircraft Intake Duct

DRDO, Jodhpur

LCA Tejas Avionics Part Task Trainer

HAL – LCA Unit, Bangalore

T90 Main Battle Tank Pre-Heater

HVF, Avadi

TRUSTED BY & TECHNOLOGY PARTNERS

Supporting Leading Organisations

HAL • ADA • DRDO • BEML • Indian Railways • RITES • Alstom • Bombardier

Global Technology Partnerships

RUBTEC, Denmark — Aluminium Wheels

VCI Composites, Canada — Armour Grade Composite Panels

OUR DIRECTION

Engineering Today. Building for Tomorrow.

Mission

To provide innovative and reliable Aerospace & Defence solutions that contribute to technological advancement and global security.

Vision

To become a leading industry player through advanced engineering, innovation and customer-focused solutions.

CONTACT

Let's Engineer What's Next.

Connect with Sree Dakssnaa Aerospace & Defence for engineering, manufacturing and project collaboration opportunities.
